Bioinspired Perception and Robotics

Release 0.1

Swarup Tripathy

Nov 03, 2022

CONTENTS

This is an experimental documentation project such that I could finally work on initiating documentation for my major project. Hehe!

Note: This project is under active development.

ONE

ED SHEERAN

Because I wasn't getting anything else

Tables are really easy to write:

Country	Capital
France	Paris
Japan	Tokyo

TWO

IMAGINE DRAGONS

You can put text in *italic* or in **bold**, you can "mark" text as code with double backquote `print()`.

Special characters can be escaped using a backslash, e.g. \ or *.

Lists are similar to Markdown, but a little more involved.
